

FIRMIN

Fuel Policy (Base price £1.14)

April 2011

Volatile World Oil prices mean we either need to continually re-negotiate haulage rates or implement a fuel surcharge mechanism for all clients. Please see below our Fuel Surcharge mechanism, based on average UK diesel costs for the previous month.

The surcharge applies for a complete calendar month and is based on delivery date NOT the collection date of your consignment.

Your haulage tariff is based with fuel at **£1.14**, therefore the following table will apply with effect 1st October for UK & European Distribution services.

The prices quoted are for road diesel. We use our own delivered average price for bulk diesel purchases as this will normally be less than independent sources. We guarantee that our average price will not be greater than the UK average price posted monthly by the AA on their website. This report is available at www.theaa.com/motoring_advice/fuel

Average Price Excluding VAT	Fuel Surcharge
107.01 to 110.00 per litre	-2.0%
110.01 to 113.00 per litre	-1.0%
113.01 to 116.00 per litre	0.0%
116.01 to 119.00 per litre	1.0%
119.01 to 122.00 per litre	2.0%
122.01 to 125.00 per litre	3.0%
125.01 to 128.00 per litre	4.0%
128.01 to 131.00 per litre	5.0%
131.01 to 134.00 per litre	6.0%

The rate charged during the month of carriage will be based on our previous months diesel purchases. We shall no longer issue monthly updates on Fuel Surcharge by e-mail, instead we will publish the average fuel price on the "Fuel Surcharge" section of our Web site.
